Missouri Medicaid

June 2017

Calendar

We have received a number of calls about the changes in Medicaid and how it will impact clients of CCDDR so we went to the Dept. of Social Services website directly and found the following: Effective May 1, 2017 the Missouri Managed Care program will be operated statewide.

However, Missourians who are aged, blind or disabled, including those Missourians with developmental disabilities served through the Missouri Department of Mental Health, **will not be included in the managed care system** and will continue to receive services through the traditional MO HealthNet program.

On another note: Effective 7/1/2017 the asset limit for Missouri Health Net will increase for the first time in 50 years. This means a single person can have up to \$2,000 in a checking account and still qualify for Medicaid and a couple can have up to \$4,000. This will make a significant change for a number of our clients who have applied for Medicaid in the past and been denied because their monthly Social Security check was \$1,210 for example.

Please keep in mind that this will most likely lead to a large number of applicants and that they have 45 days to process the applications and respond to you so be patient. See RSMO 208.010 for more details.
